

Common Sense with the Common Core

An Integrated Implementation Model for Teachers

Join Tammy Elser for two days of practical, grade level specific training to support implementation of the Montana Common Core Standards for English Language Arts and Literacy in Science, Social Studies and Technical Subjects, while also learning integration strategies to achieve higher levels of implementation of Indian Education for All. Signup for two days, one in June with a follow-up in August to start next school year with specific, simple and thoughtfully integrated strategies to jump start Montana Common Core implementation.

You will take away additional tribally specific content knowledge, strategies to employ context to achieve IEFA integration, and a wealth of literacy skill-building strategies linked to complex texts. Model lessons will be provided and demonstrated. Standard operating procedures supporting Common Core implementation unique to YOUR grade level will be developed with an eye to the first day of school! The series is offered FREE of charge, in two locations, Billings or Missoula and limited to 36 participants per grade level cluster. Registration is limited; pre-registration is necessary.

Dates, by grade level, for each location are as follows:
